

Service Announcement Notice of Road Service Disruption

Pickering Parkway between Liverpool Road and Glenanna Road

Purpose: Pickering Parkway Traffic Restrictions and Delays

Duration: April 19, 2012 – August 1, 2012

Additional traffic restrictions and delays related to improvements to Pickering Parkway to facilitate access to the GO/Metrolinx Pedestrian Bridge are expected. This is in addition to the existing works associated with the construction of the Pedestrian Bridge across Highway 401. This initiative will affect the North Boulevard, South Boulevard and the road on Pickering Parkway between Liverpool Road and Glenanna Road.

For the safety of the pedestrians, it has been determined that the sidewalk along the north boulevard of Pickering Parkway will be closed, either side of the pedestrian bridge from the new parking garage intersection to The Bay entrance into the Mall.

A plan is attached showing the limit of the closure.

Should there be any questions or concerns, please contact:
